

Master System
ERP Business Software Solutions

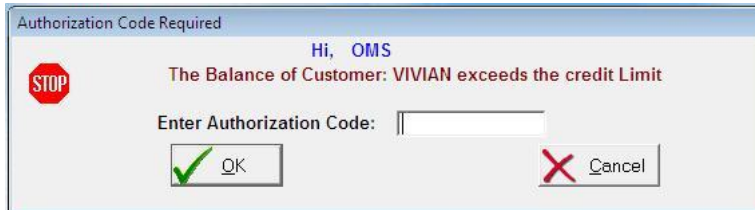

June 2011 Newsletter

Arcadia, CA – June, 2011 - Master System, a leading developer of ERP business software solutions, is pleased to inform you some add-on features:

Customized Authorization Code Requirements

Do you often wish that OMS will give you a warning message when a customer exceeds his/her credit limit, or when the selling price is below average cost, or when the ship quantity is more than the in stock quantity, or when creating a sales order for an inactive customer, etc...? OMS customized authorization code requirement is the solution. This feature allows you to approve some entries with authorization code if your customized requirement is not met. Just let us know your requirement and we can customize your authorization needs. It is that simple. Call us now. We are pleased to share with you how you can use authorization code customization with OMS.

Email Master(EML)

Do you have product catalogs, specials or new seasonal arrivals to send to all of your customers? Today, you are probably emailing OMS Invoices, Sales Orders, Purchase Orders, Statements, Catalogs and more directly from OMS after previewing your report! With the new add-on OMS Email Module, you will be able to email more efficiently from personalized sales order to invoice notifications with one click. The new module also features a convenient way to send bulk emails, so you can quickly send product catalogs, announcement, or specials to your selected group of customers. With just a few click and you are connected to your customers. Speak to one of our knowledgeable service specialists about this new feature today!
