

Master System, Inc.
User Conference 2008
"Thinking Outside the Box"
June 6, 2008

June 9, 2008

Dear Valued OMS Customer

On behalf of Master System and our entire team of customer support analysts, I thank you for your participation in this year's OMS User Conference. Our attendance included OMS users from more than 200-companies from all across North America. Presentations were delivered that shared with you the basics, intermediate and advanced capability of OMS. Very lively question and answer sessions held after each presentation highlighted the conference. Many of the attendees came from as far as Pennsylvania, Minnesota, Washing State just to name a few. We made every effort to ensure you would get the most of OMS and to help you we would like to offer to you a copy of our entire presentation kit. If you are interested, please visit our web site where you can download a copy for yourself.

I was pleased to hear that most of you are excited about the prospect of using some of the intermediate to advanced features presented during the conference. Please feel free to contact our customer support analysts who will be more than glad to assist you.

Once again, thank you for your participation. Look for another user conference this fall.

Sincerely

Robert Wan

CEO
